<https://www.canadadry.com/> <https://www.snapple.com/>
- Renovated Deutsch's web presence <https://www.deutsch.com/> and personalized employees' year-end reviews at growthplan.deutsch.com (VPN).

12-2020 - Present

Full Stack Developer @ [Devsu](#)

React Native, React, Node.JS, Drupal, Next.JS, AWS Services

- Deliver high-quality, robust production code for a wide range of projects for diverse clients, including:
 - **Corporación Favorita:** Upgraded the platform from Drupal 7 to Drupal 10.
 - **Del Monte Foods:** Developed and maintained informative pages using Drupal 9.
 - **Devsu Profile:** Created internal profile systems with Next.js and React, including login integration and robust mocked testing.
 - **Brightkey:** Migrated online libraries to AWS Cloud, transitioned from FTP to Git, and improved development experience with Docker.
 - **QualifAI:** Designed systems using Node.JS and DynamoDB, implementing database mock testing for quality assurance.
 - **Smartmate:** Built business automation solutions with React, React Native, and TypeScript.

06-2019 – 08-2020

Mobile Developer @ [LifeOmic](#) via [Ravn](#)

React Native, Node.JS, AWS

- Focused on React Native development for Life Extend and LIFE mobile apps, implementing responsive design and optimizing UI components across devices
- Redesigned the Profile tab and enhanced user engagement through horizontal-scrolling Pillar Button features.
- Team leader for our remote development team while collaborating with cross-functional teams (Design, Scientists, Server-side) to resolve microservice infrastructure challenges.
